

## STANDARDIZED PERFORMANCE MEASURES FOR SBHCs

The following tables provide explanations of each of the five performance measures, including measure definitions; numerators and denominators; source of the definitions; and claim/encounter codes that are relevant to each measure. The following general definitions apply throughout:

- **School year:** A 12-month period from July 1 – June 30 (i.e., the 2018-19 school year is defined as July 1, 2018-June 30, 2019).
- **Unduplicated SBHC clients:** Students who had at least one visit of any type to the SBHC during the school year. This should be an unduplicated count.
- **SBHC visit:** A visit to the SBHC to receive any type of service from any type of service provider. Visits should be face to face encounters, though can include telehealth visits. Visits to receive group services or first aid/triage can be included. Each SBHC client may have multiple visits to the SBHC.
