Objectives

We will describe:

1. The National Quality Initiative and progress to date
2. How to prepare for 2017-18 school year reporting
3. How to use our toolkits to identify promising strategies for improvement
4. Questions
What is the National Quality Initiative (NQI) and Quality Counts?
Challenging the SBHC field to adopt the first ever set of standardized performance measures
What does this make possible for us?
SBHCs to voluntarily adopt and report performance measures
Annual risk assessment

Alcohol and drug use screening and/or counseling

Annual well-child visit

Asthma treatment plan visit

Nutrition screening and/or counseling

STD Chlamydia screening

Tobacco use screening and/or cessation assistance

Oral health assessment

BMI assessment

Depression screening

Physical activity screening and/or counseling
Core performance measures for SBHCs

- Annual well child visit
- Annual risk assessment
- BMI screening and nutrition/physical activity counseling
- Depression screening
- Chlamydia screening

Number of SBHCS whose 2017-18 NQI reporting is complete: 238
Number of SBHCS whose 2017-18 NQI reporting is currently underway: 142
National Completion Rate: 8%
SBHCs can download reports to view their data and compare it to others in the state and nationally.
NATIONAL QUALITY INITIATIVE REPORT

Name of SBHC:
SBHC City and State:
Name of Primary SBHC Sponsoring Organization: 2015-17 School Year
Report Timeframe:

View how your SBHC’s performance measures compare to the averages of other SBHCs participating in your state and across the country.¹

View how an SBHC compares to state and national averages

¹Data may not appear in the bar chart if an SBHC reports inaccurate or incomplete data (i.e., over 100% for the measure or missing values for the denominators).

Short summary for E-blast

School-based health centers across the country are adopting and reporting standardized performance measures as part of the National Quality Initiative. Join the momentum! In this webinar, School-Based Health Alliance experts will describe promising strategies, frequently asked questions, and case examples for adopting, reporting, and improving performance measures. Attendees will learn how to use the Alliance’s new NQI Toolkits on documenting clinical quality, sustainability, classroom seat time saved, and clients’ experience of care.
