Adolescent HIV Prevention TeleECHO Clinic™

Announcing a new virtual learning community created for school-based health center primary care providers who want to:

- Improve their school-based health center's capacity to provide high quality HIV prevention to adolescent patients
- Create an SBHC environment that is welcoming and affirming to Lesbian, Gay, Bisexual, Transgender and Questioning (LGBTQ) and Gender Non-conforming (GNC) youth

Register for the School-Based Health Alliance's TeleECHO Clinic today!

Benefits for Your SBHC

- Participate in case-based clinical learning discussions and brief didactics focused on reducing HIV and STD acquisition risk for adolescents, particularly adolescents who identify as LGBTQ and GNC.
- Increase confidence and competence to provide LGBTQ and GNC identified adolescents with appropriate care in a welcoming and affirming SBHC environment.
- Address the high burden of HIV infection and fight HIV and LGBTQ stigma in your community.
- Receive 2 CEUs per session at no cost. This activity is pending approval to award contact hours.

Eight Virtual Sessions

12:00-2:00 pm EST
1st Tuesday of every month
May-December 2019
