Adolescent Health ECHO Clinic™™

Want to improve the adolescent-friendliness of your health center, and provide better care to adolescent patients? Are you interested in virtually working with and learning from other community health centers and federally qualified health centers (FQHCs) across the country? If you're a primary care or behavioral health provider, clinic nurse, medical assistant, or health educator and answered yes to these questions, register for the School-Based Health Alliance's Adolescent Health ECHO today!

ECHO Benefits

- Participate in case-based clinical learning discussions focused on improving clinical care for adolescents and creating adolescent-friendly environments.
- Gain critical knowledge on how to identify and manage adolescent patients' mental health, sexual reproductive health, and well care through brief didactics on topics of interest to learners.
- Become an adolescent expert and advocate for your patients, practice, and community.
- The School-Based Health Alliance has applied to provide continuing education credits for attendees to receive 1.5 CEUs per session.

Virtual Sessions

January-April 2020

Thursdays, 12:00-1:30pm EST

Eight sessions

90 minutes each
