

School-Based Health Centers

The Intersection of Health and Education

Health is a critical factor in setting our children up for success in life inside and outside of school. School-based health centers (SBHCs) increase access to health care, contribute to positive educational outcomes, reduce emergency room use, lower Medicaid costs, and expand access to mental health services.

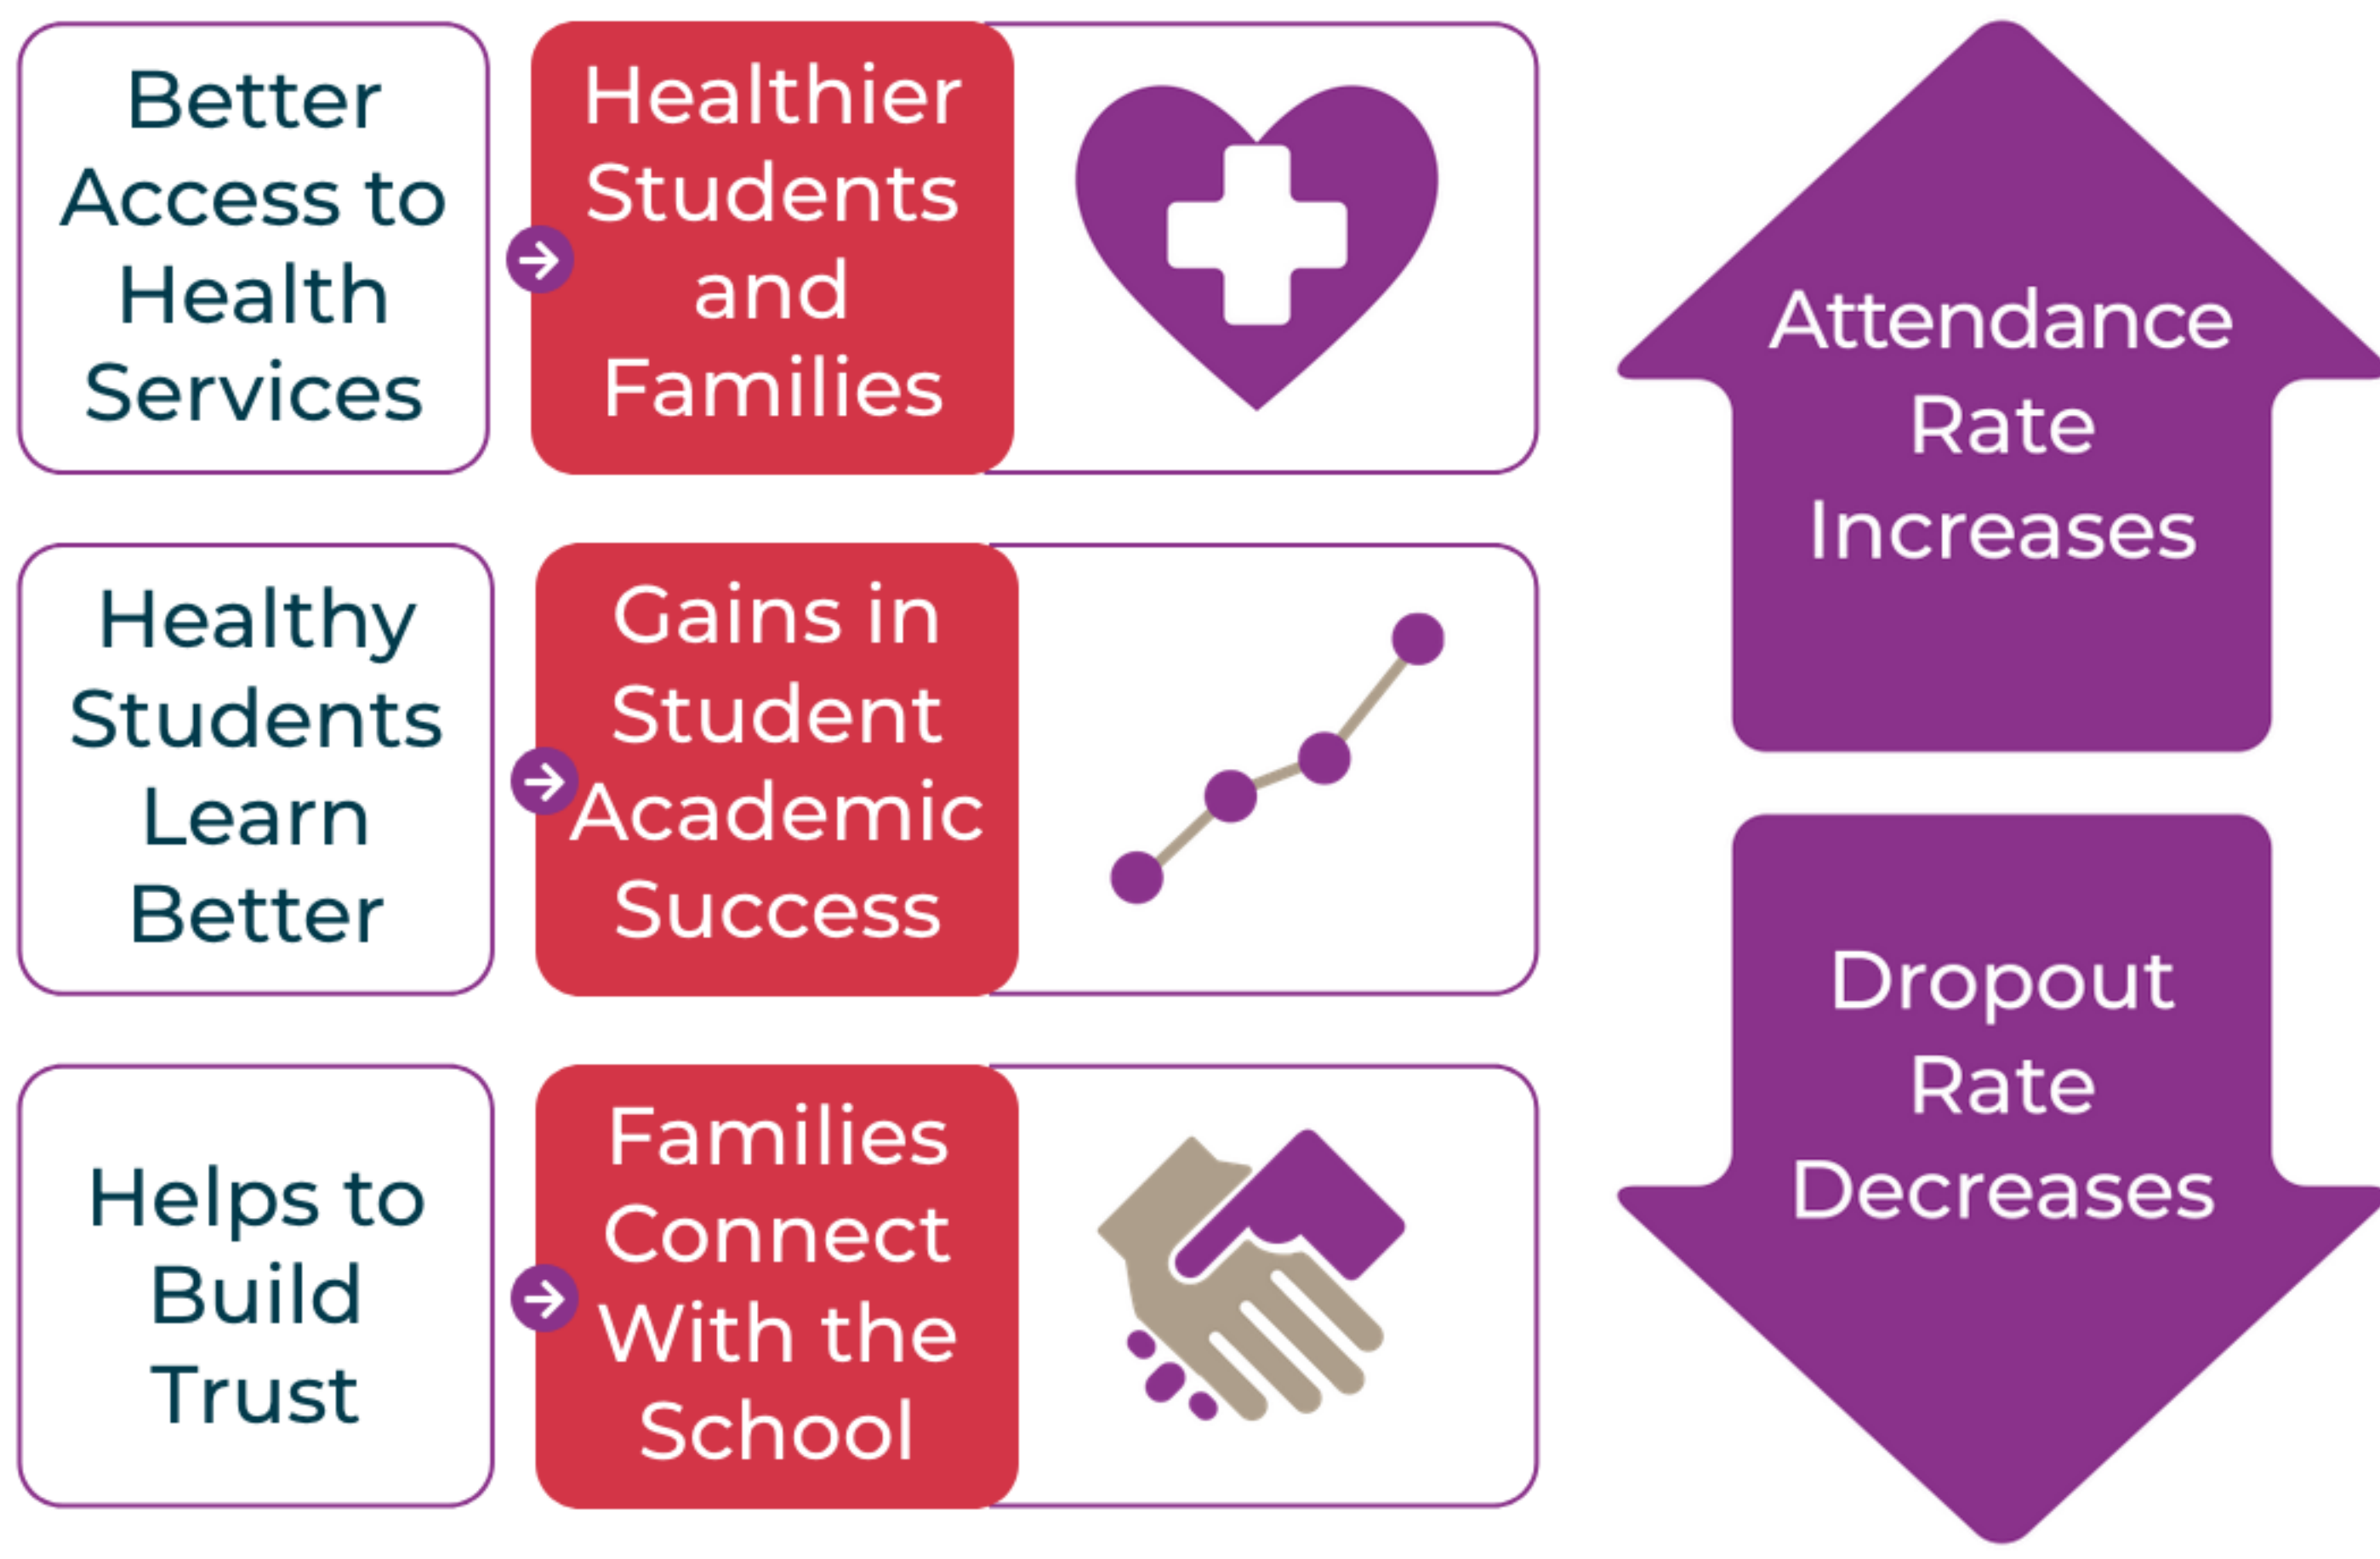

Healthy Benefits

Services that SBHCs Provide

Healthy Impacts

Health Supports Successful Students & Families

Lower Medicaid Costs

Reduced Emergency Room Usage

More Time at Work Increases Families' Financial Security

Healthy Partnerships

Delivering Health Services to Underserved Communities

Most school-based health centers are operated by an external sponsoring medical partner.

Federally Qualified Health Centers

- Hospitals
- Nonprofit or Community-Based Organizations
- Local Health Departments
- School Districts
